

Let's Stay

(Words & Music ©Alison Saltmarsh, Rebecca Saltmarsh, James Suart)

[Verse 1]

All I ask of you is to treat me sweetly
All I ask of you is to handle me with care
All that I could want for is - right here beside me
Love me so completely - if you dare

[PC1]

Never thought that I could need you - like I do
Never thought that it could be so - precious with you
Never thought that life could be this - good to me
Lovin' you the way I do (baby) - sets me free

[Chorus]

Let's stay - I wanna stay like this forever
Let's stay - close beside you, for the rest of my life
Let's stay - this feeling can only get stronger
Let's stay - make our lovin' - better each day

[Verse 2]

When I close my eyes at night, I feel you
When you're far away from me I - know you're here
Deep inside my heart no-one can steal you (ooooo)
What I have with you is just beyond compare

[PC2]

Lovin' you has made me see things clearer (m-aha)
Lovin' you has made me change my - point of view
Never have I felt so much emotion (n-aha)
Sharin' life with you has made me - feel so new

[Chorus]

[M8]

Always there when I need you baby - right by me all the way thru yeah
Never doubt you for a single minute - whatever we got we will always share
What you need is my arms around you - side by side, all the way thru yeah
Move our love in the right direction - whatever we got we will always share (hah)
